

Metz Antennas

HIGH END FREQUENCY

"When it comes to safety, depend on only the finest."

Since 1977, Metz Antennas has established an incomparable reputation as a manufacturer and supplier of quality marine antennas and accessories, as well as radios, CBs and emergency transponders for private and commercial applications. There is no mysterious secret to our success—just exceptional products known to last for 30-plus years, rather than just the few years of service offered by many of the inferior products on the market today.
