NOTE: Stegmeier LLC does not recommend the installation of cantilever forms with double-faced tape directly to any installed liner. The recommended method is to apply **No Gum Tape** to the liner and then install the cantilever forms to the correct elevation, sticking the double-faced tape to the No Gum Tape.

As conditions and methods of use of our products are beyond our control, we offer these products in good faith but without guarantee, either expressed or implied.

This form is designed to be used when pouring stamped concrete. The two-piece design allows the contractor to leave the ledger portion in place while removing the form early enough to stamp the face.

STAMP-A-FORM with Nail-On Ledger

Poured in Place "Cantilever Forms" (Gunite)

CARTON Includes:
100 ea. Tie Wires
100 ea. Washers
100 each 2" Concrete Nails
100 each 2 1/2" Concrete Nails
100 each Fender Washers
1 roll Bending Tape

PACKAGED 112' PER CARTON

DESCRIPTION	PART #
Stamp-A-Form With Nail-On Ledger - Tie Wire	13CF112

This form is designed for Stamped Concrete Applications before the tile is applied.

Complete Set	CSG1000	

NOTE: We recommend the use of our Frontier Desert Seal on child safety grip pours to help reduce the effects of freeze/thaw damage. See page 43.

PLUMB STRIP

Used to Square the Top Edge of Fiberglass Pools (Fiberglass)

Plumb Strips are PVC strips used to square the top edge of a fiberglass pool (one piece) in preparation for setting a Cantilever form. Plumb Strips are installed using the self-tapping screws provided. Flex Track is available. Tighter radii may be formed by adding additional relief cuts, making Plumb Strip adaptable to virtually any pool or step configuration.

EXAMPLE: Capstone Tie Wire Form as applied to Plumb Strip.

DESCRIPTION	STRAIGHT	FLEX
Plumb Strip - White	FBGL-W	FBGL-W-FLEX
Plumb Strip - Grey	FBGL-G	FBGL-G-FLEX

"FLEX" PLUMB STRIP
allows for easy application on
free formed pools.

CARTON INCLUDES:

- 112' PLUMB STRIP - 8' LENGTHS
- 100 SELF-TAPPING SCREWS

TEAR AWAY PLUMB STRIP

Now you can tear away the Plumb Strip when you're done! (Fiberglass)

Tear Away Plumb Strips are PVC strips used to square the top edge of a fiberglass pool (one piece) in preparation for setting a Cantilever Form. Tear Away Plumb Strip-Flex is available for free form pools. Tighter radii may be formed by adding additional relief cuts making Tear Away Plumb Strips adaptable to virtually any pool or step configuration. After the form is removed, the vertical face of the Tear Away Plumb Strip can be removed leaving a clean look.

This is an example of how a cantilever form mounts to the Tear Away Plumb Strip.

DESCRIPTION	PART #
Tear Away Plumb Strip - Grey	TPS-G
Tear Away Plumb Strip - Grey - Flex	TPS-G-FLEX

CARTON INCLUDES:

- 112' TEAR AWAY PLUMB STRIP - 8' LENGTHS
- 100 SELF-TAPPING SCREWS

TEXTURIT FORM & LINER

Textured Pool Forming System

- User-friendly foam forms
- Re-usable liners
- Conforms to virtually any pool shape

Tan	TILE-T-FLEX
Black	TILE-B-FLEX

PACKAGED 112" PER CARTON
8' LENGTHS

RENOVATION TILE STRIP

Renovation Tile Strip is an innovative design used for replacement and renovation of discolored or broken tile strips. The attachment process is mechanical. The top flange is designed to compress when inserted into a saw cut 5/8" deep x 1/8" wide. A bead of adhesive placed between the top flanges adheres the strip in place.

DESCRIPTION	PART #
White	TREN1W

112' PER CARTON, 8' LENGTHS
(back edge may be cut for radius)

(Renovation)

TILE LEDGER BOARD

Tile Ledger Board is a reusable system that is used in setting perimeter tile on inground concrete pools. Because this product can be used for an entire season and more, Tile Ledger Board can be considered a "tool" rather than a material that has to be continuously reordered like other ledger materials.

- **REUSABLE**
- **NAIL HOLES** (pre-drilled)
- **FLEXIBLE YET RIGID**

DESCRIPTION	PART #
Size: 1" x 4" x 4'	TLB-001

PACKAGED 40' PER CARTON

TIE WIRE SIDE KIT

The Tie Wire Side Kit is designed to attach Stegmeier LLC forms to the pool wall. Place the washer on the tie wire and push the tie wire through the form at the proper elevation. Wrap the tie wire around the 1 1/2" concrete nail to secure.

CARTON INCLUDES:

- 100 TIE WIRES
- 100 WASHERS
- 100 1 1/2" CONCRETE NAILS
- 1 ROLL OF BENDING TAPE

DESCRIPTION	PART #
Tie Wire Side Kit (1 per carton)	CFA001-SINGLE
Tie Wire Side Kit (5 per carton)	CFA001

PLUMB STRIP SIDE KIT

The Plumb Strip Side Kit is designed to attach Stegmeier LLC forms to a fiberglass pool. Place the washer on the tie wire and push the tie wire through the form at the proper elevation. Wrap the tie wire around the screw or bend over the back edge of the pool lip to secure.

CARTON INCLUDES:

- 100 TIE WIRES
- 100 WASHERS
- 200 SCREWS
- 1 ROLL OF BENDING TAPE

DESCRIPTION	PART #
Plumb Strip Side Kit	CFA050

PACKAGED 1 PER CARTON

ENCAPSULATED FORM ADAPTER

The Encapsulated Form Adapter allows you to set any of our gunite style forms on a pool with an encapsulated cover track.

DESCRIPTION	PART #
8' length (112' per carton)	EFA112

1" EXTENDER STRIP

For 1" Cantilevered Edge Extension

DESCRIPTION	PART #
8' length (480' per carton)	6CF999
4' length (32' per carton)	6CF999-32

1 3/4" EXTENDER STRIP

For 1-3/4" Cantilevered Edge Extension

DESCRIPTION	PART #
8' length (240' per carton)	7CF999
4' length (32' per carton)	7CF999-32

STEP LEDGER

This ledger system is used when it is necessary to pour the cantilever deck prior to setting the tile. Step ledger is nailed to the pool wall, level with the high point and the Stegmeier pool form is attached with double faced tape. Step ledger may be used to install any of the following Stegmeier deck forms:

- CAPSTONE
- REGULAR
- DEEP REGULAR
- INTERMEDIATE
- CLASSIC ROMAN
- COMMERCIAL
- SANDSTONE
- OG FORM
- RESIN ROCK
- DEEP RESIN ROCK

DESCRIPTION	PART #
Step Ledger	16CF112

CARTON INCLUDES:

- 112' STEP LEDGER
- 100 2-1/2" CONCRETE NAILS
- 100 2" CONCRETE NAILS
- 100 FENDER WASHERS
- 1 ROLL BENDING TAPE

CLIP-LOC Regular, Capstone and Intermediate with Liner Track

Poured in Place Cantilever Form (Liner Pools)

The Clip-Loc Form attaches to the pool wall panel with double-faced tape and plastic clips (embedded in the foam). The clips snap into the liner track at 6 inch intervals and provide a positive and secure locking device.

DESCRIPTION	PART #

LINER TRACK

All Liner Tracks are available in Flex-Track to freely form to any pool shape.

Liner Track is long lasting, economical and works well with all Stegmeier Clip-Loc forms. Liner Track is made with 100% Virgin P.V.C. with UV inhibitors.

PRODUCT	DESCRIPTION		PART #
Liner Track	Straight	50 pieces per carton	8CF998
	Straight	14 pieces per carton	8CF998-112
	Flex-Track	25 pieces per carton	8CF999
	Flex-Track	14 pieces per carton	8CF999-112
pieces are 8' in length			
Corner Radius Track	2' Pieces	10 pieces per carton	8CF997

DUAL ALUMINUM LINER TRACK

The Dual Aluminum Liner Track system allows for a liner to be placed into position before the cantilever form placement occurs.

This liner track provides a lower slot that is designed to accommodate most liner beads. The upper slot will accept any of the Clip-Loc Form profiles.

Stegmeier offers a PVC filler strip extrusion that will fill the upper slot after the forms have been removed. See page 12.

PRODUCT	DESCRIPTION		PART #
Dual Aluminum Liner Track - White	Straight	14 - 8 ft. pcs. per carton	8CF970
	Flex-Track	14 - 8 ft. pcs. per carton	8CF975

ALUMINUM LINER TRACK

Liner Track

Aluminum Liner Track is extra wide, making it easy to fasten. It works well with polymer walls, metal walls and concrete walls.

PRODUCT	DESCRIPTION		PART #
Aluminum Liner Track - White	Straight	14 - 8 ft. pcs. per carton	8CF950
	Flex-Track	14 - 8 ft. pcs. per carton	8CF955
Aluminum Liner Track - Grey	Straight	14 - 8 ft. pcs. per carton	8CF960
	Flex-Track	14 - 8 ft. pcs. per carton	8CF965

FILLER STRIP

Filler Strip is used to fill the gap that is left when using Clip-Loc Liner Form with Dual Aluminum Liner Track.

DESCRIPTION	PART #
Grey	FLS122
White	FLS112

PACKAGED 112'
(112' lengths / 1 roll)

NO-GUM TAPE

This tape provides a removable protective film that leaves no gum residue. The Cantilever Forms may be attached directly to the tape surface. This product is recommended for use with one-piece fiberglass pools and liner pools having the liner installed prior to pouring the deck.

DESCRIPTION	PART #
12 Rolls per carton	#4287 -12
1 Roll	#4287

2" x 60 yard

BENDING TAPE

Bend Tape is a fiber-stranded tape that is used for bending cantilever forms.

DESCRIPTION	PART #
1 Roll	#BEND TAPE

35 yard

S-CLIP

Liner Receptor used on Above Ground Liner Pools

Stegmeier's S-Clip has a heavier gauge liner bead receiver that resists liner roll-out. This heavy-duty extrusion slips down over the top of the pool wall adding rigidity while holding the liner bead firmly in place. With this design, the stabilizer bar may be clipped over the top of the S-Clip instead of being threaded from the end.

- **Heavy-Duty Design**
- **Stabilizer Bar May Be Clipped Over**
- **UV-Resistant Material**
- **53-Inch Lengths**

DESCRIPTION	PART #
S-Clip	SCLIP

PACKAGED 40 PIECES

PER CARTON

CANTILEVER STEP KIT

Forming system used to install Cantilever edges on molded, preformed steps. (Liner)

The kit attaches mechanically to the top flat surface of the molded, preformed step. This unique design adapts to virtually any preformed step application.

STANDARD STEP KIT INCLUDES:

- 3 4' STRAIGHT PIECES WITH CLIPS
- 2 PREFORMED CORNERS WITH CLIPS
- 1 48" AND 2 EACH 36" BRACES
- 25 SCREWS AND WASHERS
- 25 TIE WIRES
- 1 PROFILE EDGING TOOL
- 1 ROLL BENDING TAPE

RADIUS STEP KIT FOR RADIUS STEPS (No Corners):

- 5 4' STRAIGHT PIECES
- 50 SCREWS
- 50 WASHERS
- 50 TIE WIRES
- 1 PROFILE EDGING TOOL
- 1 ROLL BENDING TAPE

Poured in Place Pool Cover Form (Gunitite)

Patented

This product saves time by mounting the track the same day as the pour and is an extremely strong attachment because the anchors are cast into the concrete.

CARTON INCLUDES:

- 104' POOL COVER FORMS
- STAINLESS STEEL HARDWARE KIT
- 90 DEGREE PREFORMED GUNITITE CORNER KIT
- 2 TIE WIRE SIDE KITS
- TILE STRIP

DESCRIPTION	PART #
Pool Cover Form II Tie Wire - White Tile Strip	4PC104
Pool Cover Form II Capstone Tie Wire - White Tile Strip	49PC104
Pool Cover Form II Regular Tie Wire - White Tile Strip	41PC104

LINER POOL COVER FORM

The Liner Pool Cover Form is a poured in place Cantilever Form that allows the contractor to install the pool cover track at the time of the pour.

DESCRIPTION	PART #	PACKAGED
Liner Pool Cover Form Regular - Tie Wire - Liner Track *	8PC104	104' PER CARTON
(For Aluminum Liner Track) Just add extension "NT" to the back of the part# and order 8CF950 for Aluminum Liner Track (Straight)		

* Includes 2 Tie Wire Side Kits

POOL COVER FORM E

Poured in Place Pool Cover Form for Pools having Encapsulated Tracks

Pool Cover Form E provides a cantilever edge on swimming pools having encapsulated automatic pool covers. The foam protrusion above the double faced tape is designed to key into the aluminum channel, keeping the track clean during the pour and establishing elevation.

Part# 4PCEL
CARTON INCLUDES:
■ 104' POOL COVER E FORMS
■ 125 TIE WIRES
■ 125 CONCRETE NAILS
■ 125 SELF-TAPPING SCREWS
■ 125 WASHERS
■ 1 ROLL OF BENDING TAPE

RENOVATION FORMS

This form is used in remodel applications to replace out-of-date “old fashioned” coping stones. After removing the old coping, Renovation Forms attach to the ceramic tile using double faced tape (Tie Wires are included for extra support). These forms are also used in forming cast-on-site concrete countertops.

DESCRIPTION	Regular	OG	Capstone	Diamond Cut	Marble Round
PART #	5CF512	5CF612	5CF112	5CF812	5CF712

CARTON INCLUDES:
■ 112' RENOVATION FORMS
■ 1 TIE WIRE SIDE KIT (SEE PAGE 8)

RESIN ROCK AND DEEP RESIN ROCK

This form is designed to be used when applying resin overlays to existing cantilever decks. The forms are lined with tape to prevent the solvent based overlays from dissolving the foam and to leave a smooth surface when removed.

DESCRIPTION	RESIN ROCK	DEEP RESIN ROCK
PART #	15CF999L	11CF999L

CARTON INCLUDES:	CARTON INCLUDES:
■ 112' RESIN ROCK FORM	■ 112' DEEP RESIN ROCK FORM

FOAM PROFILE EDGING TOOLS

Finishing or touching-up a Cantilever edge, Step Liner or Wall Cap profile is much easier now that we offer disposable Foam Profile Edging Tools.

This tape-on-form design provides a clean finishing surface that flexes with the foam allowing you to finish without leaving "chatter marks".

Foam Profile Edging Tools are available to fit the following shapes:

WALL CAP FORMS

Wall Cap Forms are used to pour concrete caps on block walls, glass block walls, planters and benches. Wall Cap Forms are made of foam, making them lightweight. They are held in place with reusable spring clamps. Wall Cap Forms are available in several classic profiles. They provide an affordable "Cast-in-Place" solution.

COUNTERTOP FORMS

For poured in place concrete countertops

Stegmeier's Countertop Forms are the answer to installing the popular counters found in many contemporary kitchens, baths and commercial sites such as restaurants and bars. These short 2" thick profiles are the perfect height for most applications and can be shaped or mitered to any angle.

Capstone

Diamond Cut

STEP LINERS

**AFFORDABLE, LABOR SAVING,
BEAUTIFUL RESULTS**

**AVAILABLE
IN 8' OR 4'
LENGTHS**
4' lengths can be
shipped UPS

Step Liners are a flexible foam step liner used to produce architectural profiles when pouring concrete steps. These labor saving forms are attached to the inside of the wood forms using spray adhesive or nails. Radius steps may be formed by attaching Step Liners to Slip-N-Join Lumber (a reusable plastic bender board by Stegmeier LLC). Break-away slots allow for three (3) riser heights. Step Liners may be stripped and finished much earlier than conventional forms.

Use spray adhesive or nails to attach.

SLIP-N-JOIN LUMBER

Slip-N-Join Lumber is a reusable synthetic forming material that's ideal for producing free-form concrete designs that win awards in the swimming pool as well as the landscaping industry.

ECONOMY

Slip-N-Join Lumber, unlike plywood or masonite, is reusable making it more economical with each job. A light oil film is necessary for the first two uses.

TIME SAVING

Your forming crew will find Slip-N-Join Lumber a lightweight and easy to work with material. Less grade marks are necessary, as Slip-N-Join Lumber does not warp and tends to find its own elevation. The forms are connected by simply plugging into the couplers, eliminating the need for time-consuming splicing.

DESCRIPTION	PART #	SPECIFICATIONS	CONTENTS

FRONTIER POLI-VOID

Flexible Expansion Joint Material System

Frontier Poli-Void by Stegmeier LLC is available in three heights: 1-1/2", 3" and 4" with 3/8" perforated tear strip.

FRONTIER POLI-VOID INSTRUCTIONS:

To determine the size needed, check the coping. If you have just the depth of the coping, use the 1-1/2". If the bond beam is notched or goes straight down from the bottom of the coping, use the 3".

With the 3/8" tear strip in an upward position, apply spray adhesive 1/2" below the tear strip section so as not to interfere with the bonding of the joint sealant. The concrete is poured to the opposite side and edged with 1/4" edger. The deck (surface) should be allowed to cure before the 3/8" tear strip is removed and the Boss Joint Sealant is applied.

COMPRESSION, psi
at 10% deflection - less than 10
at 80% deflection - less than 125

MOISTURE VAPOR PERMEABILITY

FRONTIER DECK JOINT

Frontier Deck Joint provides the necessary crack control, but not so deep as to interfere with steel placement. In addition to control, it adds a beautiful finished look. It is cost effective, durable and easy to install. With the "T" member ears embedded in concrete, surface water seepage is kept from subsoil.

DESCRIPTION	PART #

FLOWMASTER COMMERCIAL DECK DRAIN

Flowmaster Commercial is a 4.75" removable top drain that features a double wall base and a snap in top (PVC). When installing this drain the tops are staggered past the joints making the joints very rigid. Because the Flowmaster Commercial Deck Drain tops are removable, this drain is easy to clean and the tops can be replaced if ever damaged. Flowmaster Commercial Deck Drain is used on many commercial swimming pools, patios and other areas where large amounts of water need to be removed.

CARTON INCLUDES:

- 4 10' BASE
- 4 10' TOP CAP
- 4 COUPLERS

A full range of fittings are available.
(see pg. 34)

! This drain is not designed to be used as a full expansion. Stegmeier LLC requires that a Drain Dowel be placed every 36", midway in the drain to prevent damage due to concrete deck movement.

THIS DRAIN IS PACKAGED
40' PER CARTON

DESCRIPTION	WHITE	GREY	TAN
Flowmaster	FMW	FMG	FMT
Top Cap Only	FM-TCW	FM-TCG	FM-TCT
Base Only	FM-BASE	Maximum Flow Rate: 23.6 gal. per minute per foot.	

DESCRIPTION	PART #	
Drain Dowels (12 per carton) – Needed for 40'	DOW-12	See page 37

FLOWMASTER A/T

Flowmaster A/T's wide design is ideal for commercial use or other applications that require a durable drain able to remove large quantities of surface water. Flowmaster A/T features a snap-on, removable cap for easy cleaning and secure foot for easy installation. It also comes in workable 10 foot lengths with five "aluminum" finishes to choose from.

CARTON INCLUDES:

- 1 10' BASE
- 1 10' TOP CAP
- 1 COUPLER

A full range of fittings are available.
(see pg. 34)

! This drain is not designed to be used as a full expansion. Stegmeier LLC requires that a Drain Dowel be placed every 36", midway in the drain to prevent damage due to concrete deck movement.

Aluminum top drains are recommended in high temperature surface areas or excessive reflective surface areas around windows, doors, etc.

DRAIN DOWELS (Fiberglass)

Drain Dowels to be used with two-piece drains.

DESCRIPTION	PART #
Drain Dowels (12 per carton) – Needed for 40' of drain	DOW-12
Drain Dowels (24 per carton) – Needed for 80' of drain	DOW-24

CUT LENGTH
12 INCHES

NOTE: The use of proper "PPE" is required when handling fiberglass Drain Dowels.

RE-COVER DRAIN II

Designed to repair drains that are pinched due to deck movement.

Re-Cover Drain II is attached at one side only, allowing the drain cover to be successfully applied to drains that are distorted due to damage from deck movement. This "free floating" design makes this product adaptable to various drain widths.

DESCRIPTION	PART #
White	RD2W-2
Grey	RD2G-2

Grey	RCD-G
Tan	RCD-T
Black	RCD-B

PACKAGED 80' PER CARTON
IN 10' LENGTHS

NOTE: Installation Tips and illustrations see RE-COVER DRAIN

(Renovation)

RE-COVER DRAIN

Replacement top used to repair damaged deck drain.

Re-Cover Drains are designed with continuous side-to-side slots, allowing water to enter from either side at the original elevation. This important feature prevents ponding and subsequent freeze and thaw damage.

DESCRIPTION	PART #
White	RD2W
Grey	RD2G
Tan	RD2T
Black	RD2B

PACKAGED 80' PER CARTON IN 10' LENGTHS

INSTALLATION TIPS

Using a 1/8" carborundum or diamond blade, make two parallel cuts removing the center of the damaged deck drain. Apply a continuous bead of silicone into the crack between the side walls of the existing drain and the concrete. Press the Re-Cover Drain into the silicone filled slot. Place a weight on top of the Re-Cover Drain to hold it securely in place until the silicone cures (if necessary).

DRAIN EXTENDER KIT

Drain Extender Kit is used when it is necessary to raise the elevation of an existing drain in preparation for the installation of Pavers or Overlays.

The Drain Extender Kit is used in many applications to increase the height of an existing drain. It is attached base clip first to an existing drain with the screws provided and the top is "snapped" into place. Both the top and bottom pieces of the Drain Extender Kit have slots in them to allow the water to pass through to the existing drain, leaving behind a beautiful new drain.

DESCRIPTION	PART #
White	DEK40W
Grey	DEK40G

FRONTIER DESERT DECK

Frontier Desert Deck is an additive, available in 13 pastel colors that when mixed with marble sand and white cement and applied properly, produces a “Dash Finish” that is ideal for residential and commercial swimming pool decks.

COOLNESS

Because of the pastel shades, texture and marble sand, Frontier Desert Deck is noticeably cooler than broom finish concrete.

SAFETY

When applied properly, Frontier Desert Deck retains a non-skid quality even when wet.

DESCRIPTION	PART #

Packaged: 8 units per carton

FRONTIER BONDING AGENT

Frontier Bonding Agent is a three-stage bonding system used to apply cementitious toppings to existing concrete. The primary coat penetrates into the concrete leaving a completely insoluble membrane once the liquids have evaporated. The second coat is applied after the first coat has dried and effectively seals the surface of the concrete, protecting against uneven suction from the base concrete. The third coat **MUST** be applied to re-wet (or freshen) the surface just prior to applying the topping.

DESCRIPTION	PART #
1 Gallon	FRBA1
5 Gallon	FRBA5

COVERAGE:
APPROX. 200 SQ. FT. PER GALLON ON FIRST COAT,
300 SQ. FT. PER GALLON ON SECOND COAT

FRONTIER DESERT SEAL

Protects Concrete From Freeze/Thaw

Frontier Desert Seal — a colorless, penetrating solution for concrete and Frontier Desert Deck surfaces.

Frontier Desert Seal is a catalytic agent which reacts with free alkaline hydrates by internally producing an aero silica gel which fills the pore spaces and voids left by the evaporative loss of moisture. Frontier Desert Seal does not alter the surface's appearance or physical characteristics of Frontier Desert Deck, but will significantly protect concrete from damage caused by the freeze/thaw cycle.

DESCRIPTION	PART #
5 Gallon	DESEAL

COVERAGE:
APPROX. 300-400 SQ. FT. PER GALLON

DECK RENEW

Restore deck surfaces to a like-new appearance

Deck Renew is available in 10 shades. This finish tends to retain the highlights in textured surfaces.

Many concrete decks and patios, although still structurally sound, are in need of a facelift. Deck Renew can restore these decks to a like-new appearance, avoiding the need for costly demolition and reconstruction.

Deck Renew is applied using two coats. The first coat soaks in, providing a positive bond while the second coat adds extra wearability.

DESCRIPTION	PART #
